## WHITE PAPER

# WHAT IS Shiba Ramen?

Being a good human being starts with ensuring you're always thinking of more than just yourself.

Shiba Ramen is an ERC-20 token with a bigger goal: to help make the world a better place.

As an integral part of the bigger Shiba Chef ecosystem, Shiba Ramen features a community of like-minded holders and developers who see the beauty in what the rise of cryptocurrency has to offer.

You could say we're keen on **changing the world, one tasty token at a time.**

**Name:** \$SHIBRAMEN

**Launch Date:** June 5, 2021

**Total Supply:** 850,000,000,000,000,000

**Purchase Ability:** Uniswap or 1Inch

**Contract Address:**

0xb2e20502c7593674509b8384ed9240a03869faf3

Our goal is to keep Shiba Ramen a project driven by the needs of the community. That's why we opted to **renounce the contract and burn all LP tokens** from the very first day of launch.

In addition, we offer rewards to those who continue to hold for the long term. **7% of all buy/sell transactions are automatically distributed to holders with TrustWallet or Metamask.**

Early on, we launched our **Ramen Swap and Ramen NFT** projects. These two items are crucial to our goals of ensuring Shiba Ramen is an exciting token different from the countless other meme coins out there.

**Ramen Swap** is a special Uniswap trading platform available **via our website** that makes purchasing Shiba Ramen easier than ever before. With updates planned in the near future, we fully anticipate this to be an integral part of what makes us different.

**Ramen NFT** is another exciting element of the Shiba Ramen community. By supporting artists, we're able to **give back to the community while making donations to charity.** Additional details on this initiative are available on our website and as more listings become available for purchase.

**Name:** \$SHIBRAMEN

**Launch Date:** June 5, 2021

**Total Supply:** 850,000,000,000,000,000

**Purchase Ability:** Uniswap or 1Inch

**Contract Address:**

0xb2e20502c7593674509b8384ed9240a03869faf3

Additional community projects are coming in the near future to help raise awareness and further grow our mission. The current list includes **Ramen Wear, Ramen Hunt, and Ramen Kits.**

These projects are all designed to increase sense of community while increasing visibility of the token and the overall Shiba Chef ecosystem.

We plan to continue to add new features and elements to Shiba Ramen as it further evolves and the community demands it. After all, this project was created for you to have a say in your investment.

**The biggest part of what makes Shiba Ramen so exciting is our holders.**

**We cannot wait to make a difference in the world with your help.**

# LETTER FROM OUR Development Team

**Dear Holders,**

We are absolutely blown away by your support and generosity as we've launched and grown. The people we've met in the Shiba Ramen community are absolutely fabulous examples of those who believe in a dream and take it through the growing stages to bigger and better things.

**What is a meme coin, anyway?**

*A meme is an idea that anyone can get behind. No matter your race, no matter your background, no matter your financial rating. It's the next step to a better society.*

A society where the people decide what matters. Not the systems that restrain us.

Shiba Ramen is a community movement. A movement to protect, a movement to serve, a movement to prosper, and a movement to create change.

You've put your trust in us. The beauty of the blockchain is that it's trustless.

Our contract is renounced, we can't change it. The liquidity is locked, we can't touch it.

Your passion is unparalleled, we'll return it.

We're about to take on a challenge no-one believed we could. In the face of projects with valuations of over 100x of ours. We keep our heads down. We keep our egos quiet.

With you on our side, we don't believe those who challenge us.

We know we're about to change the whole meme token game.

To the Shiba Ramen community, this is for you.

Let's send it.

Best,

**The Shiba Chef Development Team**

# FREQUENTLY Asked Questions

## You've Got Questions. We've Got Answers.

### **Why Are There So Many Tokens Under the Same Umbrella?**

This is the burning question on everyone's minds and we're going to answer it first. The truth? We like doing things big. But we also see the value in smaller sub communities coming together. By having multiple coins with similar goals, we're able to market them more effectively and create a more intimate following for each one. More details as to the reasoning behind this and how it will all work will come when we launch our staking platform, Shiba Chef, soon.

### **How Do I Buy Shiba Ramen (\$SHIBRAMEN)?**

You can buy Shiba Ramen (\$SHIBRAMEN) on Uniswap or on 1inch. To do this you'll need an ERC-20 wallet (like MetaMask or Trust Wallet) and some Ethereum (\$ETH) tokens for gas fees. You'll then need to connect your wallet and then swap \$ETH for your \$SHIBRAMEN tokens.

### **What is the Official Contract Address for Shiba Ramen?**

The only official contract address for Shiba Ramen (\$SHIBRAMEN) is:  
0xb2e20502c7593674509b8384ed9240a03869faf3

### **Why Do I See an Error When I Try to Buy/Sell on Uniswap?**

Usually, this is because slippage isn't high enough. Try increasing this to 20%, which you can do in the settings menu. This will account for price fluctuations that occur with high volume trading. trade volume is high, prices can fluctuate quickly which may lead to an error. To counteract this, you'll need to increase the slippage.

### **Why Aren't My Tokens Showing in My Wallet?**

If you can't see your tokens, you'll need to add \$SHIBRAMEN as a custom token. Open up your tokens list and in the search bar insert the contract address from above. Slide the toggle on and you'll then be able to see your tokens.

### **Is Shiba Ramen Rug-Proof?**

Yes, it is. The contract has been renounced and LP tokens burned. Our development team is here for the same reasons you are and cannot wait to see this grow.

# WHY BUY Shiba Ramen?

As we move forward with our plans within the Shiba Chef ecosystem, we're looking at our overall goal of helping more people, small businesses, and canine companions around the globe.

Examples include, but are not limited to:

- Giving artists a chance to make a decent living through our NFT sales.
- Helping small businesses and ramen shops around the globe increase visibility through our Ramen Kit program.
- Donating to charities that help Shiba Inu dogs and other breeds through our various initiatives.

If you're looking for a meme token that comes with a solid community, ambitious goals, and an understanding that playing big is the only way to make a difference, then **you have what it takes to really be a true Shiba Ramen community member.**
